# MARCOS CHOTSOURIAN

Ssr FullStack Dev

## PROFESSIONAL SUMMARY

Having dedicated many years to different education projects, I decided to work also in programming and computer sciences. I started as a DBA and then continued as a Full Stack Web Developer and Integrator Developer. Later on, I became a FullStack teacher on employability oriented courses. I am strong in back-end, algorithms, team work and communication skills. I am now working as a freelance FullStack Dev.

## SKILLS

- |                    |                        |               |
|--------------------|------------------------|---------------|
| • .NET             | • API REST             | • GIT         |
| • Entity Framework | • MVC                  | • Agile       |
| • SQL              | • Layered Architecture | • Scrum       |
| • React            | • HTML                 | • Organized   |
| • TypeScript       | • CSS                  | • Independent |
| • JavaScript       | • Bootstrap            | • Reliable    |

## WORK HISTORY
